In this course, the participant learns to create a spatial mix
for a live event, either from audio objects or from an original stereo mix.

SUMMARY

COURSE TYPE	Product training
LEARNING PATH	L-ISA Mixing engineer
LEARNING OBJECTIVES	• Understand and experience the L-ISA spatial parameters • Understand and experience the differences between traditional left right systems and L-ISA • Experience the support of visiting engineers on an L-ISA installation

MODALITIES

PREREQUISITES	• System & Workflow & L-ISA Technology course certification • Technical English
DURATION	7 hours
PARTICIPANTS	8 maximum
LEARNING FORMAT	Instructor-led session: onsite classroom
TEACHING METHODS	Presentation, guided tutorials, listening demonstrations
LANGUAGES	• Session delivered in local language • Material written in technical English
INSTRUCTOR PROFILE	Live sound expert, selected, trained, certified and regularly updated by L-Acoustics education team
CERTIFICATION	Attendance to the sessions

LEARNING AGENDA

OBJECT-BASED MIXING - SPATIAL PARAMETERS	• Demo – Pop or classical mix • Mixing recommendations • Demo – L-ISA vs. mono dual mono stereo • L-ISA mixing environment setup	**3 HOURS**
MIXING PRACTICE	• Tutorial - Building a spatial balance • Tutorial - Visiting engineer support • Playback and exchange	**3 HOURS**
OBJECT-BASED MIXING - SNAPSHOTS	• Demo – Pop or classical mix • Working with snapshots	**1 HOUR**

REQUIRED EQUIPEMENT

INSTRUCTOR-LED SESSION	• Computer with a mouse (preferably Apple MacBook Pro or equivalent, Mac OS 10.13 minimum) • For Apple users, latest version of L-ISA studio (to be activated during the course) or Windows version of L-ISA controller softwares • Note pad and pen

EARNED BENEFITS

Upon completion, the participant is granted with a Certificate , a 1-year Educational discount on L-Isa Studio (1 individual license) in the L-Acoustics eStore, and a 1-year account activation/extension on the online L-Acoustics Education platform.

In the platform, the membership to the L-ISA Live mixing group opens access to:

• Always up-to-date L-ISA Live mixing material in the Learning center

• Forum gathering all the L-ISA Live mixing certified learners and instructors
